Position Description

The American Veterinary Medical Association, a national not-for-profit association established in 1863 and representing over 84,000 veterinarians nationwide, is seeking a Statistical Data Analyst for our newly formed Veterinary Economics Division located in our Headquarters office in Schaumburg, IL.

Reporting to the Director, this newly created position will be responsible for data management, collection and analysis related to veterinary economic issues and in support of the profession and practice of veterinary medicine. They will also assist in all areas related to statistical matters including data management methods and the selection and interpretation of statistical analyses of primary and secondary data utilizing existing data bases from various sources including the AVMA, federal government agencies, and other organizations.

The qualified candidate will have an MS in statistics or a related field, with a minimum of 3 years of related experience in the design and statistical analysis of surveys, association experience is a plus. Must have demonstrated knowledge of applied statistics, with significant experience in large-scale data analysis, data integration, data mining, optimization techniques, algorithm design and development, and

data visualization as evidenced by citable publications. Must be proficient with statistical packages such as SPSS, SAS and STATA; have excellent written & verbal communication skills; enthusiasm, innovation, and proactive project management skills are a must. Limited travel.

Deadline for application is 3/28/13. Submit resume with salary requirements to: apply@avma.org
