

Presentation title: “The Role of Economics in Interdisciplinary Environmental Policy Debates: Challenges and Opportunities”

Dr. Kathleen Segerson is a Board of Trustees Distinguished Professor of Economics at the University of Connecticut. She is an environmental economist, with a strong interest in collaborative interdisciplinary work. Her research within economics has focused primarily on the incentive effects of alternative environmental policy instruments, including applications in the following areas: groundwater contamination, hazardous waste management, workplace accidents; land use regulation, climate change and nonpoint pollution from agriculture. In addition, she has been a participant in several projects related to ecosystem services and to the protection of marine species.

Dr. Segerson is a fellow of the Association of Environmental and Resource Economists (AERE) and of the American Agricultural Economics Association (AAEA). She is past-president of AERE, and has served as Vice-President and a member of the AERE Board of Directors. She is currently a co-editor of the new *Journal of the Association of Environmental and Resource Economists* and has previously served as a co-editor and an associate editor of the *American Journal of Agricultural Economics* and an associate editor of the *Journal of Environmental Economics and Management*. Dr. Segerson has been a member of the Chartered Board of the U.S. Environmental Protection Agency’s Science Advisory Board (SAB), and has served on several SAB committees, including serving as vice-chair for the Committee on Valuing the Protection of Ecological Systems and Services. She is also currently a member of the Board on Agriculture and Natural Resources of the National Research Council (NRC) of the National Academy of Sciences. Past service also includes several advisory committees for the NRC and the National Science Foundation, including recent service on the NRC Panel on the Review of the National Climate Assessment. She also serves on the Centre Advisory Panel of the Nordic Center on Research on Marine Ecosystems and Resources under Climate Change and the External Advisory Board of the National Socio-Environmental Synthesis Center (SESYNC).

Dr. Segerson holds a BA in mathematics from Dartmouth College and a PhD in agricultural and resource economics from Cornell University.
