

AAEA News

President-Elect Seeks Volunteers for AAEA Committees

Members interested in shaping the future of the AAEA can play an essential role by serving on an association committee. Committee service also offers an excellent opportunity for developing contacts and increasing professional networking.

Beatty will make appointments to the following 2024–2025 committees in June 2024:

- AAEA Trust
- Awards
- Case Study Invited Paper
- Communications
- Employment Services
- Fellows Selection
- Finance
- Galbraith Forum and Award
- Membership
- Mentoring
- Nominating
- Selected Presentations
- T.W. Schultz Lecture

For information about these committees and a list of their current members, please visit <http://www.aaea.org/about-aaea/aaea-committees>.

Any AAEA member interested and willing to serve on a committee should contact Kristen McGuire at kmcguire@aaea.org or (414) 918–3190 by **May 3, 2024**.

2024 AAEA Accept/Reject Notifications

Notifications for the 2024 AAEA Annual Meeting were sent on March 26. Please check your email (and spam/junk folders) or log into the [abstract management system](#) to view your standing.

Presenter Requirements by May 15, 2024

In order to participate in the 2024 AAEA Annual Meeting, presenters **MUST** meet three requirements:

1. Be a [2024 AAEA member](#)
2. [Register for the 2024 annual meeting](#)
3. Upload PDF of finished paper (or poster if presenting a poster) to AAEA submission site using these [instructions](#).

****If your institution will be registering you for the Annual Meeting or renewing your membership it is your responsibility to ensure that they have done so prior to the May 15 deadline.**

Presentations are subject to withdrawal from the program if requirements are not completed by **May 15 at 11:59 pm CST**. If you would like to withdraw your paper, you must notify the AAEA business office of your intentions at (414) 918–3190 or info@aaea.org.

Announcing the 2024 Extension Competition for Graduate Students at the 2024 AAEA Annual Meeting

The AAEA Extension Competition for Graduate Students provides an opportunity to develop and/or get feedback on programs that communicate research and practical information to Extension (usually non-economist) audiences. Entries can be based upon graduate student research for a thesis, dissertation, or other academic work. The competition is sponsored by the Extension and Graduate Student Sections.

Nominations Call: HES Best Publication of 2023 Award

Nominations are now open for our Health Economics Section Best Publication of 2023 Award.

We invite you to nominate a paper for this award. Self-nominations and nominations of others' papers will be accepted.

Please submit the nomination to Bhagyashree Katare, bkatare@purdue.edu, by **March 31, 2024**.

Eligibility for the Health Economics Section Best Publication Award

Any article related to health policy published in an academic peer-reviewed journal in the 2023 calendar year. Submissions may include papers related to animal, human, and/or environmental health. Theoretical or empirical research papers will be accepted. The submission of high-impact research that demonstrates innovative and original contributions is highly encouraged.

Preference will be given to research led by an emerging scholar.

Submission deadline: **March 31, 2024**

Submission process: Email your nomination with a PDF of the publication attached to Bhagyashree Katare, bkatare@purdue.edu.

Call for submissions: AAEA invited paper sessions at the 2025 ASSA Annual Meeting

President-Elect Tim Beatty is soliciting proposals and suggestions for AAEA invited paper sessions at the 2025 Allied Social Sciences Association (ASSA) Annual Meeting in San Francisco, CA, January 3–5, 2025.

The objective of AAEA sessions at the ASSA Annual Meeting is to share new knowledge of interest to economists. The AAEA encourages sessions that will draw widely from ASSA attendees, including sessions jointly sponsored with other ASSA member associations.

A subcommittee of the AAEA Board will review all proposals. Preference will be given to proposals that

- 1) Cover issues of national and international importance,
- 2) Expand capabilities and tools for economic research,
- 3) Promise a high-quality collection of papers suitable for publication.

Papers in approved Invited Paper sessions are eligible to be peer reviewed for publication in the proceedings issue of the *Applied Economic Perspectives and Policies*. Authors will be contacted by the *AEPP* editors with manuscript submission details.

Proposed formats for the 2-hour sessions may include either three papers with one discussant or else four papers with no discussant. All proposals must include a plan for fostering participant interaction.

Proposals should include the session title and paper titles, as well as the names, addresses, phone numbers, and e-mail addresses of the session organizer, moderator, paper presenters, and discussants. Proposal text should begin with a short justification of the session, followed by one paragraph abstracts describing the objective and contributions of each paper. The organizer is responsible for ensuring that all individuals identified in the proposal are willing to participate.

All speakers and discussants must be members of AAEA, although the proposal may request a membership waiver under special circumstances. Participants must register for the ASSA meeting.

Please send proposals by **May 22, 2024**, in Word or PDF format to Mary Annen at mannen@aea.org.

Call for Papers:**Special Issue: Artificial Intelligence and Data Analytics Use in the Classroom and Academy**

Deadline: June 30, 2024

Applied Economics and Teaching Resources is calling for manuscripts about use of artificial intelligence (AI) and data analytics in undergraduate and graduate education in the classroom and across the academy. Submissions of case studies, teaching and extension scholarship and research, educational innovations and methods, extension education innovations and methods, and commentaries about use of artificial intelligence, including use of large language models (LLMs) and platforms, such as ChatGPT, Bing AI, Bard, amongst other, and data analytics in undergraduate and graduate education, extension education, and other learning venues in institutions of higher learning. This special issue is open to a wide array of topics related to artificial intelligence and data analytics across the agricultural and applied economics and agribusiness and management economics disciplines. Topics may include but are not limited to innovative use of AI and data analytics in the classroom; innovative data analytic teaching modules and teaching case studies; teaching case studies about the impact of AI on agriculture, the agricultural industry and society; ethical and academic concerning the use of AI in the academy; assessments of AI for different learning outcomes and tasks; and use of AI and data analytics in extension education programming.

Special Issue Timeline:

If you are interested in making a submission to the special issue, please submit a 300 word abstract to Dr. Jason Bergtold (bergtold@ksu.edu) by **June 30, 2024**, at the latest. The abstract should describe the overall theme/topic of the manuscript, how it relates to the special issue call, and how it can be used for educational purposes. Your abstract will be reviewed once submitted and you will then be informed if you will be invited to submit a submission to the special issue.

Full papers for accepted abstracts must be submitted through AETR at www.aetrjournal.org. All papers will go through a double-blind peer review process and be available online via Advanced Access for readers once accepted. All submissions will need to follow the AETR submission guidelines at: <https://www.aetrjournal.org/contribute/submission-guidelines>. If you have questions about the special issue, please email the special issue editors.

Call for Papers**Special Issue: Designing Agribusiness Education for Changing Student Demographics and Employer Needs**

Deadline: June 30, 2024

Applied Economics and Teaching Resources is calling for manuscripts related to agribusiness education and curriculum. Agribusiness programs are simultaneously grappling with changing student demographics and evolving employer needs. Continued consolidation across all agricultural sectors means that fewer students are growing up on farms and ranches than in previous generations. Additionally, automation and technological change are rapidly transforming agricultural supply chains. This change has contributed to a growing gap between the skills and knowledge sets that agribusiness programs prioritize and what employers within the food supply chain value (Johnson, Downey, and Holcomb, 2023). Agribusiness programs must both broaden their appeal to students without an agricultural background and adapt curriculum to ensure students are given the tools they need to thrive after graduation. Programs that achieve these objectives will help empower the next generation of problem solvers to grapple with increasingly intricate challenges within the food value chain. Departments that cannot meet these objectives may experience decreased enrollment and struggle to place graduates.

We are seeking submissions that address the following concerns:

- **General Decline in College Students Nationally and Changing Backgrounds:** Agribusiness programs face enrollment challenges from two fronts. First, declines in the population that is college age, along with growing skepticism of higher education from the public, will shrink the pool of students attending a university at the national level. Second, fewer students are growing up on farms and ranches each year, which shrinks the pool of students that traditionally formed the cornerstone of agribusiness programs. To avoid declining enrollment, agribusiness programs will need to appeal to a wider demographic of students. This is likely to create challenges in instruction and require content to focus on skills, as well as agriculture specific content. Research contributions could include curriculum aimed at addressing this change or analysis aimed at measuring this change and predicting its impacts on recruitment.
- **Disparity in Defining Agribusiness Bounds:** There has been a growing discussion over the identity of agribusiness as a discipline. There are increasing employment opportunities in parts of the supply chain far from the farm gate, but agribusiness programs risk losing their core competencies if they become too general. Individual departments may have responded to this question in unique ways. Thus, having a discussion on what programs offer in their curriculum in terms of courses, electives,

concentrations, experiential learning or opportunities for learning outside of the classroom would be illuminating.

- **Generational Gaps:** Each generation grows up exposed to different social and cultural landscapes than previous generations. These changing experiences can impact the average skill and deficiency levels students within an age group have for various topics (e.g. stronger technological savvy than the previous generations but weaker communication skills on average). Discussions of necessary adjustments to the curriculum in order to leverage generational strengths and help refine generational skill gaps would benefit the future positioning of agribusiness programs. A few examples of topics within this vein include work that measures these generational changes or work that presents pedagogical contributions for addressing them in the classroom.
- **Evolving Employer Needs and Trends:** Personal characteristics and essential (or soft) skills draw top billing by the agribusiness profession when evaluating graduates for potential employment. However, the business and economic knowledge held by graduates still remains a high priority for agribusinesses. Agribusinesses have also started putting more emphasis on the lower ranked areas of technical knowledge, computer skills, and work experiences. This presents a challenge for programs on how to balance developing graduates skills and knowledge while maintaining limited credit hours. Perspectives and practices that speak to how programs can shift classes, curriculum, or teaching methods to help students to be competitive in the job market and valued by agribusiness hiring personnel would push the academy forward to meet the future challenges. Particular interest will be given to work that highlights insights from industry shareholders or provides survey results.

We expect this special issue to facilitate a discussion of innovative ideas aimed at supporting recruitment, curriculum and course development, teaching methods, and outreach to industry. By addressing these issues, agribusiness programs can ensure that graduates are well-equipped to meet the challenges and opportunities of the 21st-century agricultural sector and food supply chain. This special issue would serve as a valuable resource for educators striving to shape the future of agribusiness education. Authors are encouraged to submit any type of work that fits within the four categories discussed. The special issue will have three guest co-editors Dr. Tanner McCarty (tanner.mccarty@usu.edu), Dr. Anastasia Thayer (awthaye@clemsun.edu) and Dr. Aaron Johnson (ajjohnson@ksu.edu) in addition to the AETR Editor, Dr. Jason Bergtold (bergtold@ksu.edu).

Special Issue Timeline:

If you are interested in making a submission to the special issue, please submit a 300 word abstract to Dr. Anastasia Thayer (awthaye@clemsun.edu) by **June 30, 2024** at the latest. The abstract should describe the overall theme/topic of the manuscript, how it relates to the special issue call, and how it can be used for educational purposes. Your abstract will be reviewed once submitted and you will then be informed if you will be invited to submit a submission to the special issue. Full papers for accepted abstracts must be submitted through AETR online by December 31, 2024. All papers will go through a double-blind peer review process and be available online via Advanced Access for readers once accepted. All submissions will need to follow the AETR submission guidelines at: <https://www.aetrjournal.org/contribute/submission-guidelines>. If you have questions about the special issue, please email the special issue editors.

Government Relations & Washington Update

April 2024

President Biden Releases FY 2025 Budget

On March 11th, President Biden released his FY 2025 Budget Request, kicking off the budget and appropriations process for the next fiscal year. The [Office of Science and Technology Policy](#) has outlined the research investments proposed in the budget across multiple federal agencies. The Budget [includes](#) \$202 billion for federal research and development (R&D) to address a variety of priorities including: promoting robust health and ample opportunity for each person in every community, addressing the climate crisis, sustaining global security and stability, and realizing the benefits of artificial intelligence (AI) while managing its risks. The Budget would invest \$99 billion in basic and applied research that will drive the development of future cutting-edge technologies, products, and services. It also invests in transformative approaches to harness innovation in health and energy, like the Advanced Research Projects Agency for Health (ARPA-H) and the Advanced Research Projects Agency-Energy (ARPA-E).

Highlighted priorities include:

- **Advancing safe, secure, and trustworthy artificial intelligence** – \$1.6 billion in investments across the National Institutes of Health (NIH), \$729 million for AI R&D at the National Science Foundation and \$310 million for DARPA’s AI Forward initiative.
- **Bolstering R&D for future economic competitiveness** – \$20.1 billion—a \$1.2 billion increase over the 2023 enacted level—in the three CHIPS and Science Act authorized agencies: NSF, the Department of Commerce’s National Institute of Standards and Technology (NIST), and the Department of Energy’s (DOE) Office of Science.
- **Promoting better health outcomes for every person** – \$3.4 billion in R&D for Cancer Moonshot-related investments
- **Maintaining global security and stability** – \$92.8 billion in Department of Defense (DOD) R&D to support the development of next-generation defense capabilities.
- **Tackling the climate crisis and environmental impacts** – \$10.7 billion in clean energy innovation activities and \$4.5 billion in climate research activities, including efforts that advance the U.S. Global Change Research Program’s Decadal Strategic Plan.

Proposed Agricultural Research Funding in FY2025 Budget Request

The [FY 2025 USDA Budget Request](#), released on March 11th, includes \$4 billion for the Department’s Research, Education and Economics Mission Area. The proposal would provide increases for the Economic Research Service and the National Agricultural Statistics Service, both of which received funding reductions in the FY 2024 appropriations process. Most NIFA accounts would be funded at FY 2024 levels, with the Agriculture and Food Research Initiative (AFRI) seeing a \$30 million increase over FY 2024. Below is a summary of key REE accounts, plus the Office of the Chief Economist:

<u>ACCOUNT</u>	<u>FY 24 Consolidated</u>	<u>FY 25 President</u>
OCE	\$30.5 million	\$32 million
ERS	\$90.6 million	\$98 million
NASS	\$187.5 million	\$196 million
Hatch	\$265 million	\$265 million
AFRI	\$445.2 million	\$475 million
Smith Lever	\$325 million	\$325 million

NIFA Publishes Helpful Hints for Funding Opportunities

On March 27th, the National Institute of Food and Agriculture (NIFA) published a [blog post](#) to assist stakeholders with accessing NIFA funding opportunities. The article includes links and helpful hints for those interested in NIFA programs. Below are highlighted resources NIFA provides to assist stakeholders:

- [Grants webpage](#) – provides a general overview of NIFA’s grant process from applying, managing and closing a grant.
- [Requests For Applications \(RFAs\) Calendar webpage](#) – lists open, upcoming and closed funding opportunities.
- [Events calendar](#) – highlights upcoming events including technical assistance webinars.
- [Grant writing tips](#) and [20 tips for grant writing success](#) – provide tips for effective grant writing.
- [NIFA’s program by NPL page](#) – houses a list of NIFA programs with their associated National Program Leader contacts.
- [NIFA’s Application Status dashboard](#) – allows for tracking grant applications.

Other News

NBER Conference on Competition in the US Agricultural Sector

To promote research on competition in the agricultural sector and the consequences of the industrial organization of this sector for consumers as well as input suppliers, the National Bureau of Economic Research, with support from the Economic Research Service of the US Department of Agriculture, will convene a research conference in Cambridge, Massachusetts, on December 12, 2024. The conference will be organized by James MacDonald (University of Maryland) and Fiona Scott Morton (Yale University and NBER).

More details on the conference may be found at this link: <https://www.nber.org/calls-papers-and-proposals/competition-us-agricultural-sector>. The deadline for submissions is September 3, 2024, and submissions should be of complete, or nearly complete, papers.

VIII Beeronomics Conference

The 2024 Beeronomics Conference will take place at University of Milan Bicocca, Italy, 19–22 June. Main panels and sessions will be held at the University of Bicocca main campus located in the heart of the city. The Conference Organising Committee, led by Christian Garavaglia, welcomes all high-quality research on the economics of beer and brewing. With a strong interest in interdisciplinary research, we are looking for submissions covering topics including:

- Trends and driving forces in local and global beer production, consumption, distribution

- Management, marketing, market structure and industrial dynamics
- Individual beer choice and health
- Policy and regulation
- Impact of beer on society and culture
- Environmental issues affecting beer and brewing
- Others: food industry and alternatives to beer

Please find the official Conference Flyer/Call for Paper attached. Additional information about abstract submission and event details can be found on the conference's webpage:

<https://beeronomics2024.unimib.it/>

If you have additional questions, please do not hesitate to contact: beeronomics2024@unimib.it. If you know of someone who might be interested in attending the conference, please pass this message on and as ever, apologies for cross-posting.

Anti-Harassment and Code of Conduct Policy

AAEA is committed to the fair, ethical treatment of all of its members and all other individuals participating in AAEA activities or activities connected with, or related to, AAEA activities, while providing an atmosphere that promotes a variety of research, teaching and extension/outreach activities.

AAEA has zero tolerance for, and prohibits any type of, discrimination or harassment, including sexual harassment, either within the organization, at professional meetings, in the field, or anywhere professional activities are conducted under the aegis of the AAEA.
