2022 AAEA Annual Meeting

Advance Registration & Hotel Room Block Deadline - TOMORROW

We look forward to seeing everyone at the end of this month at the 2022 AAEA Annual Meeting, which will take place from July 31–August 2 at the Marriott Anaheim in Anaheim, CA.

In the coming days, you will receive an email with details on how to download the mobile app and gain access to the meeting platform.

The AAEA Board has decided to offer a Zoom option in all of the session rooms in Anaheim. This means if you are unable to attend in person, you will have the opportunity to view any of the sessions taking place onsite at the meeting via the meeting platform. Our professional audio visual company will manage and provide the Zoom links ahead of time; therefore, presenters and session organizers do not need to worry about providing a personal Zoom link this year. The Zoom links will be on the platform for any registered attendee to access.

The Advanced Registration deadline is **July 15, 2022–TOMORROW**. Register today to avoid the price increase on July 16, 2022. Reminder to book your room at the Marriott Anaheim in the AAEA room Block before the cutoff date, **July 15, 2022**. Please contact the AAEA Business Office at info@aaea.org or (414) 918–3190 with any questions.

Start planning your travels:

Hotel Information

[Marriott Anaheim](#)
700 West Convention Way
Anaheim CA, 92802
(714) 750–8000

Single/Double: \$225.00
Make your guest room reservation using the following link:
<https://book.passkey.com/go/AAEA2022>
Reservations must be made by July 15th for the Group Rate.

PRELIMINARY SCHEDULE

Saturday, July 30

- [Pre-conference Workshops](#) (separate ticket fee required)
 - (PC11) Local Craft Industry Tour (BEER) **SOLD OUT**
 - (PC12) Leadership Development for Agricultural and Applied Economists
 - (PC13) Contribution of the Bioeconomy to the SDGs: Challenges for Monitoring, Measurement and Modelling

Sunday, July 31

- [Section Meetings](#)
- [Committee & Journal Meetings](#)
- [Gordon Rausser Keynote Address](#)
- [Reunions & Receptions](#)

Monday, August 1

- [Presidential Address](#)
- [Awards & Fellows Ceremony](#)
- Concurrent Sessions #1
- Concurrent Sessions #2
- [Luncheons](#) (*separate ticket fee required*)
 - (SP31) Extension Section Lecture & Luncheon
 - (SP32) COSBAE & CWAE Speaker Series & Luncheon
- Concurrent Sessions #3
- Poster Reception
- [Reunions & Receptions](#)

Tuesday, August 2

- [Fellows Address](#)
- Concurrent Sessions #4
- Poster Reception
- Concurrent Sessions #5
- Concurrent Sessions #6
- Concurrent Sessions #7
- [Galbraith Forum](#)

Wednesday, August 3

- [Post-conference Workshop](#) (*separate ticket fee required*)
 - (PC51) Extension Tour **SOLD OUT**

Register for the 2022 Employment Center

Registration is open for the 2022 Employment Center taking place Monday, August 1, during the [2022 AAEA Annual Meeting](#) in Anaheim, CA. The Employment Center offers a great opportunity for highly qualified candidates to connect with a number of employers during the Joint Annual Meeting. This year's Employment Center features a simplified registration and posting process that is integrated into the [AAEA Job Board](#). Applicant registration is **FREE**.

For more information, please visit the online [Employment Center](#). If you have any questions please feel free to contact [Samantha Bilgrien](#). We hope to see you in Anaheim!

Upcoming Workshop: Using Scanner Data for Food Economics Research—Resources and Approaches for New and Advanced Researchers

Dates: August 3–4, 2022 (immediately following the AAEA meetings)

Location: Hilton Hotel, Anaheim, CA with the option to attend virtually

Please join us for an upcoming workshop sponsored by the U.S. Department of Agriculture, Economic Research Service (ERS) for new and advanced researchers using scanner data for conducting food economics research. The workshop will provide an overview of IRI store and household scanner data including datasets that can be linked for analyses, introduce researchers to new data products available from ERS that can enhance analyses, provide an opportunity to learn about ongoing research using scanner data, and allow for discussion on how your research questions can be addressed using these data. The workshop will also provide an overview of possible funding sources to pursue research projects using scanner data. The workshop will be particularly useful for graduate students and early career researchers who would like to integrate scanner data into their research plans. Sessions will also be useful for more advanced users interested in learning about new datasets and approaches. More details on the program and registration options are available here:

<https://cvent.me/Zqrg7n>. If you have questions, please contact Mary Muth at muth@rti.org, Anne Byrne at Anne.Byrne@usda.gov, or Matthew MacLachlan at matthew.maclachlan@usda.gov.

AETR General Call for Papers

Applied Economics Teaching Resources (AETR) is putting out a general call for papers for innovations in teaching and Extension education. Over the past two years, higher education has seen dramatic shifts in teaching and extension, which has resulted in significant innovations in instructional delivery, new methods, new pedagogy and innovations in how we teach and do Extension. AETR seeks manuscript submissions highlighting these innovations and new methods, content, and approaches. Manuscript submissions can include research articles, commentaries, methods and case studies. Please email abstracts of your submission idea to the editor at aetr.editor@gmail.com. The abstract should include a proposed title, up to 500 word abstract for the proposed manuscript, and list of authors. The editor will review abstracts, provide feedback and invite submissions for regular submissions, thematic sections and feature articles on this topic.

AETR is an online, open access, and peer-reviewed journal of the AAEA. The aim is to provide an inclusive outlet for research, teaching and Extension education scholarship encompassing but not limited to research articles, case studies, classroom games, commentaries, experiential learning, and pedagogy. The goal is to support and advance teaching and Extension education within the scholarly areas of agricultural and applied economics, and agribusiness economics and management. AETR seeks to publish articles that are diverse in both scope and authorship. It serves as a platform for addressing and contributing to our understanding of important societal issues, including inequality and discrimination, as well as how shifts in pedagogy (e.g., growing reliance on remote and hybrid learning modalities) may impact accessibility and inclusion.

AETR encourages submissions on a wide variety of topics, including social inequality and discrimination; remote learning; hybrid learning; curriculum development; teaching innovations; classroom games; and case studies. Guidelines for submission can be found at: <https://www.aaea.org/publications/applied-economics-teaching-resources/aetr-manuscript-submission-guidelines>. All submissions will go through a blind peer-review process with no charge for submission or publication at this time. You can directly submit a manuscript at: <https://www.aaea.org/publications/applied-economics-teaching-resources>.

Please email if you have any questions or inquiries; send to aetr.editor@gmail.com. We look forward to your submission!

AETR Call for Papers

Special Issue, “Contemporary Adjustments Needed to Teaching Water Economics in Light of Challenges Facing the Water Sector and Its Users”

Guest Editors:

Ariel Dinar and Mehdi Nemati, School of Public Policy, University of California, Riverside.

Water Economics has been taught for many decades at undergraduate and graduate levels. Teaching approaches included the traditional profit/utility-maximizing agents' behavior (farmers, households) where individuals decide the allocation of a given amount of water among consuming activities. Main issues such as availability, allocation, pricing, investment, technology, and management of water resources have been at the forefront of the field of water economics. In recent decades, water resources worldwide have seen many transformations both locally and globally, making the challenges facing water-using agents much more complicated and, as a result, higher skills are needed for the tools and methods they employ.

The water sector has experienced increased levels of climate change-induced water scarcity, frequent and longer droughts, water quality deterioration, human health implications, infrastructure fatigue, increased competition over dwindling resources, conflicts, globalization, and more. These issues have various implications for water managers and users in each sector (i.e., agricultural, environmental, and urban). In addition, new water sources have been introduced in recent years, such as ocean and brackish groundwater desalinated water, treated wastewater, and flood water. In addition, several management practices have been introduced, including joint (cooperative) management of various types of open-access water sources.

Does the water (resource) economics curriculum used in our classes address such challenges and skill needs? Does it allow a proper education and training of the next generation of water economists?

This AETR Special Issue will address whether or not the water economics curriculum is ready to cope with the increased level of challenges regarding water quantity, quality, security, and derived complications. Papers in the special issue will also propose examples of how to introduce tools and class activities that address such new challenges to the water economics curriculum.

Manuscripts submitted for consideration in the special issue will address theoretical and practical experiences of the authors in the class and suggested approaches they have introduced. Manuscripts will follow the journal guidelines (<https://www.aaea.org/publications/applied-economics-teaching-resources/aetr-manuscript-submission-guidelines>). Manuscripts will be subject to a double-blind peer review process. Deadline for submission is ~~June 30, 2022~~ **extended until August 31, 2022**. Papers should be submitted through the online submission form (<https://www.aaea.org/publications/applied-economics-teaching-resources/submissions>). Accepted papers will be published first online, until the special issue is complete. Planned publication date of the special issue is early 2023.

For more information, please approach Ariel Dinar (adinar@ucr.edu) or Mehdi Nemati (mehdin@ucr.edu).

**Choices Magazine Call for Articles
Choices Themes, Single Articles, and Data Visualizations**

The AAEA welcomes proposals for themes, and data visualizations and individual articles to be published in *Choices* Magazine.

Choices, a free, online-only publication, is the principal outreach vehicle of the Agricultural & Applied Economics Association (AAEA). *Choices* articles broadly communicate the results of quality economic analysis applied to issues and challenges faced by public and private sector decision makers in ways that enhance public understanding of and appreciation for the work of agricultural economists.

While *Choices* articles are based on economic concepts, the information should be presented in the context of a policy issue without using economic jargon. Articles must be written so they are easily understood by a general-interest audience.

Choices editors are looking for three types of submissions:

- Proposals for thematic groupings of papers,
- Individual articles on any food, farm, resource or rural community issue, and
- Data Visualizations.

All manuscripts are subject to peer review for publication consideration.

Theme groupings of papers allow for in-depth coverage of important topics and showcase the different perspectives of agricultural economics analyses. To submit a proposal for theme-based articles, please complete the [Theme Proposal submission form](#). Submitted articles must be prepared according to the [Manuscript Style Guidelines](#).

Single articles provide an opportunity to address timely and important relevant issues or to present new aspects of established issues. Please complete the [Individual Article submission form](#) and follow the guidelines for preparing articles for the review process. Submitted articles must be prepared according to the [Manuscript Style Guidelines](#).

Data Visualizations are appropriate when an author would like to share imagery of an issue that is a timely and important topic based on sound economics and logic. Infographics will be reviewed and published at the discretion of the editor. Please follow the [guidelines for preparing infographics](#) for the review process.

Submissions may occur any time. Reviewed and accepted *Choices* material is compiled into quarterly issues. Subscribers and AAEA members are notified of new material through email announcements and social media postings.

If you have any questions about submitting to *Choices* Magazine, please contact the editors: Alison Davis at Alison.Davis@uky.edu and Maria Marshall at mimarsha@purdue.edu
