

## AAEA News

### 2022 AAEA Executive Board Election Candidates

#### President-Elect

[Rodolfo Nayga, Texas A&M University](#)

[Brian Roe, Ohio State University](#)

#### Director

[Gail Cramer, Louisiana State University](#)

[Aslihan Spaulding, Illinois State University](#)

[Glynn Tonsor, Kansas State University](#)

[Parke Wilde, Tufts University](#)

### Section Elections

The AAEA Section elections will also take place concurrently with the Executive Board election. You will be able to complete the Executive Board and Section elections all in one place. Section members will be directed to the Section ballots for which they are eligible to vote upon submitting the Executive Board ballot.

The AAEA elections will end on **May 15, 2022 at 11:59 pm CDT.**

### [Cast Your Vote](#)

If you have any questions or trouble accessing the online ballot, please contact the AAEA Office at (414) 918-3190 or at [Info@aaea.org](mailto:Info@aaea.org).

### 2022 AAEA Annual Meeting Anaheim, CA

We look forward to seeing everyone at the 2022 AAEA Annual Meeting, which will take place from July 31–August 2 at the Marriott Anaheim in Anaheim, CA.

2022 AAEA ANNUAL MEETING  
**ANAHEIM**  
California JULY 31-AUGUST 2, 2022

The AAEA Board has decided to offer a Zoom option in **all** of the session rooms in Anaheim. This means if you are unable to attend in person, you will have the opportunity to view any of the sessions taking place onsite at the meeting via the meeting platform. Our professional audio visual company will manage and provide the Zoom links ahead of time; therefore, presenters and session organizers do not need to worry about providing a personal Zoom link this year.

[Registration](#) for the 2022 AAEA Annual Meeting is open! Please contact the AAEA Business Office at [info@aaea.org](mailto:info@aaea.org) or (414) 918-3190 with any questions.

As a reminder, the presenter deadline is **May 18<sup>th</sup>** – all participants must be registered to attend the annual meeting, current 2022 AAEA members and for Selected Presentation presenters you also must upload your final paper and/or poster.

Start planning your travels:

**Call for submissions: AAEA invited paper sessions at the 2023 ASSA Annual Meeting**

President-Elect Norbert Wilson is soliciting proposals and suggestions for AAEA invited paper sessions at the 2023 Allied Social Sciences Association (ASSA) Annual Meeting in New Orleans, LA, January 6–8, 2023.

The objective of AAEA sessions at the ASSA Annual Meeting is to share new knowledge of interest to economists. The AAEA encourages sessions that will draw widely from ASSA attendees, including sessions jointly sponsored with other ASSA member associations.

A subcommittee of the AAEA Board will review all proposals. Preference will be given to proposals that

- 1) Cover issues of national and international importance,
- 2) Expand capabilities and tools for economic research,
- 3) Promise a high-quality collection of papers suitable for publication.

Papers in approved Invited Paper sessions are eligible to be peer reviewed for publication in the proceedings issue of the *Applied Economic Perspectives and Policies*. Authors will be contacted by the *AEPP* editors with manuscript submission details.

Proposed formats for the 2-hour sessions may include either three papers with one discussant or else four papers with no discussant. All proposals must include a plan for fostering participant interaction.

Proposals should include the session title and paper titles, as well as the names, addresses, phone numbers, and e-mail addresses of the session organizer, moderator, paper presenters, and discussants. Proposal text should begin with a short justification of the session, followed by one paragraph abstracts describing the objective and contributions of each paper. The organizer is responsible for ensuring that all individuals identified in the proposal are willing to participate.

All speakers and discussants must be members of AAEA, although the proposal may request a membership waiver under special circumstances. Participants must register for the ASSA meeting.

Please send proposals by **May 25, 2022**, in Word or PDF format to Mary Annen at [mannen@aea.org](mailto:mannen@aea.org).

---

### **Upcoming Workshop: Using Scanner Data for Food Economics Research—Resources and Approaches for New and Advanced Researchers**

Dates: August 3–4, 2022 (immediately following the AAEA meetings)

Location: Hilton Hotel, Anaheim, CA with the option to attend virtually

Please join us for an upcoming workshop sponsored by the U.S. Department of Agriculture, Economic Research Service (ERS) for new and advanced researchers using scanner data for conducting food economics research. The workshop will provide an overview of IRI store and household scanner data including datasets that can be linked for analyses, introduce researchers to new data products available from ERS that can enhance analyses, provide an opportunity to learn about ongoing research using scanner data, and allow for discussion on how your research questions can be addressed using these data. The workshop will also provide an overview of possible funding sources to pursue research projects using scanner data. The workshop will be particularly useful for graduate students and early career researchers who would like to integrate scanner data into their research plans. Sessions will also be useful for more advanced users interested in learning about new datasets and approaches. More details on the program and registration options are available here:

<https://cvent.me/Zqrg7n>. If you have questions, please contact Mary Muth at [muth@rti.org](mailto:muth@rti.org), Anne Byrne at [Anne.Byrne@usda.gov](mailto:Anne.Byrne@usda.gov), or Matthew MacLachlan at [matthew.maclachlan@usda.gov](mailto:matthew.maclachlan@usda.gov).

---

### **The 2022 Extension Competition for Graduate Students AAEA Anaheim, CA July 31-August 2**

The AAEA Extension Competition for Graduate Students provides an opportunity to develop and/or get feedback on programs that communicate research to extension (usually noneconomist) audiences. Entries can be based upon graduate student research for a thesis, dissertation or other academic work. The competition is sponsored by the Extension and Graduate Student Sections.

Note: This year, we will once again work with applicants who cannot or do not wish to attend the conference in person. The details below refer to our current plan and may change.

#### **Who's Eligible?**

- Graduate students currently engaged in topics related to agricultural economics, agribusiness, natural resources, and community resource economics as well as those who graduated from such programs in 2021 or later.
- Participants must identify and work with a mentor with experience in outreach or extension activities.

#### **The Application:**

Applications should be addressed to Kate Fuller at [kate.fuller@montana.edu](mailto:kate.fuller@montana.edu) and must include:

1. Student's name, university, department, address and contact information.
2. Title of the extension program to be delivered.
3. A summary of the proposed/conducted extension program. This should include target audience, delivery plans, communication methods and activities planned for distributing the information to the

public such as fact sheets, reports, web sites, spreadsheets, and presentations (4 page maximum). If the applicant was part of a team, the role of the applicant within the team must be made clear.

4. A one–page logic model\* (new this year)
5. A profile of the applicant’s background and research (1 page maximum).
6. The mentor’s name and description of the mentor’s role in the project.

\*Logic models can be used for planning a program as well as evaluation. Logic models are often linked with evaluation, so these two categories are combined in the scoring rubric (see following page). You can find many examples of logic models online, including:

<https://fyi.extension.wisc.edu/programdevelopment/logic-models/bibliography/>

[https://www.cdc.gov/tb/programs/evaluation/Logic\\_Model.html](https://www.cdc.gov/tb/programs/evaluation/Logic_Model.html)

<https://www.extension.uidaho.edu/publishing/pdf/cis/cis1097.pdf>

### Finalists at AAEA

Finalists will be selected to make a 15–minute presentation at the AAEA meeting either virtually or in Anaheim, CA on Sunday July 31, 2022, to a panel of judges, who will then ask 5 minutes of questions. The competition will begin at 8AM PST. Selection of the finalists will be based on the material submitted and the criteria listed below. Finalists will be notified by June 5, 2022. The top three finalists are be expected to make presentations during an AAEA Extension track organized symposium if present in Anaheim or virtually.

### Awards

Cash awards will be given to those judged to be the top three graduate students in this competition. Award funding is provided by the AAEA Extension Section through membership dues and via support provided by sponsors.

Awards are:

1. First Place: \$1,000 and a plaque
2. Second Place: \$300 and a certificate
3. Third Place: \$200 and a certificate

Other finalists receive finalist certificates.

The top 3 competitors selected will be recognized at the AAEA Awards ceremony. All finalists will be provided tickets to the Extension Luncheon during the AAEA annual meetings. Submission Deadline: **Midnight MST on Friday, May 13, 2022**. Email entries to Dr. Kate Fuller, Competition Committee Chair at [kate.fuller@montana.edu](mailto:kate.fuller@montana.edu). Finalists will be notified by June 5, 2022.

---

### GSS & C-FARE 2022 Policy Communications Competition

In today’s market, graduate students may seek careers where they are tasked with evaluating policy issues and effectively communicating their results to policymakers and other stakeholders. Therefore, the Graduate Student Section (GSS) and Council on Food, Agricultural & Resource Economics (C–FARE) partner for the 2nd Annual Policy Communications Competition. This competition provides graduate students with an opportunity to gain experience in both written and verbal policy communication.

Entries can be based on the graduate student's ongoing research. They should address a pressing, relevant policy issue relating to the 2022 Policy Communications Competition theme at the local, state, or federal levels.

## 2022 Competition Theme

The farm bill is a package of legislation updated by Congress every five years. As the 2018 Farm Bill expires in 2023, Congress has begun negotiating the next Bill. We identify four main topics from the USDA 2022 Budget Summary that tie into critical issues policymakers must consider when drafting the farm bill. These include:

1. Farm Production and Conservation
2. Trade and Foreign Agricultural Affairs
3. Rural Development
4. Food and Nutrition Security

Policy briefs for the 2022 Policy Communications Competition should relate to one or more of these four themes.

## Objectives for Participants

Evaluate a relevant agricultural, food, or resource policy issue relating to the 2022 Policy Competition theme at the local, state, or federal level.

Provide written and verbal communication that addresses a policy-relevant research question clearly, and concisely.

## Participant Eligibility

Graduate students must be a member of the GSS with a graduation date of Fall 2022 or later. They should be conducting research in agricultural economics, resource economics, regional development, or a related field.

## Competition Information

The competition will consist of two rounds. Participants must submit a typed policy brief in the first round, not to exceed two pages (double spaced, 12-point font, including references, figures, and graphics). This document should summarize the background and current status of the issue, key facts (i.e., benefits and costs of government programs or project alternatives), findings, and conclusions. The participant's job is not to convince the policymaker to take a particular position or vote a certain way but rather to evaluate, gather, and present the necessary information to make an informed decision on the issue.

The second round of the competition will consist of an oral presentation by select finalists. Within the presentation, which is not to exceed 10 minutes in length, the student should detail the specifics of the policy issue and identify additional key facts and findings surrounding the topic. An effective presentation will complement the written policy brief and should be easily accessible for policymakers.

## Preliminary Timeline

Friday, June 3, 2022:	Registration and policy brief due
Friday, June 17, 2022:	Finalists announced
Sunday, July 31, 2022:	Finalists present at the AAEA Annual Meeting in Anaheim, CA (or via Zoom)

## Registration Information & Deadline

Applications should be addressed to Megan Hughes ([hughe232@purdue.edu](mailto:hughe232@purdue.edu)) and Aaron Staples ([staple71@msu.edu](mailto:staple71@msu.edu)) and must include:

- A cover page containing:

- Participant's name and contact information
- Mentor's name and contact information
- The student's policy brief (2–page maximum).

Applications must be submitted electronically no later than midnight CT on **June 3, 2022**.

### Finalists at AAEA

Selected finalists will make a 10–minute presentation at the AAEA Annual Meeting in Anaheim, CA, or virtually via Zoom, on Sunday, July 31, 2022. The judges will evaluate presentations using a grading rubric shared with selected finalists. The selection of the finalists will be based on the material submitted and the criteria listed below. Finalists will be notified by June 17, 2022.

### Criteria for Selecting Finalists

1. The participant clearly defines the problem and discusses the feasibility of the policy ideas. The participant provides background and supporting research on the topic, including areas of government failures or unintended consequences, and addresses the proper target audience.
2. The participant integrates knowledge and research from various sources and provides a clear, concise summary of the issue.
3. The participant uses formal but non–technical language that is easily accessible to policymakers, and their brief is free of grammatical mistakes.
4. The policy brief uses appropriate formatting (proper headings, length no more than two pages, proper citation, ordered appearance, etc.).

### Awards

The top three competitors will be recognized at the AAEA Awards Ceremony and will be invited to present their work at a future C–FARE webinar (more details to come). In addition, the winner of Policy Communication will receive a plaque and a cash prize. The second and third–place competitors will receive certificates and cash awards. Cash prizes are as follows:

First place: \$300

Second place: \$200

Third place: \$100

### 2022 AEM-GSS Case Study Competition

The Agribusiness Economics and Management (AEM) – Graduate Student Section (GSS) Case Study Competition allows graduate students to test their communication skills and their ability to apply their knowledge of agricultural economics and agribusiness to practical situations.

Competition Rules and Timeline: Each team must complete the [2022 AEM–GSS Case Study Registration Form](#) by **June 17, 2022**. Teams can be comprised of up to three graduate students. Students may either compete as a team from the same university or partner with students from other universities. If there is only one student

from a university that wants to participate, the student can compete on their own; or they can be matched with other students. In the case of teams that are matched with individuals from different universities, competitors will be notified of their teammates as soon as possible, and no later than the same day the case is announced.

The case will be sent to teams in mid-July, and teams will be given approximately two weeks to prepare a 15-minute oral summary of their solution to the case. The competition will take place on Sunday, July 31, 2022 coinciding with the AAEA Annual Meeting set to take place in Anaheim, CA. Uncertainty still surrounds the logistics of the meeting, though it is our intention is for the competition to take place in-person with a virtual option for teams unable to physically attend. Teams will present their case to a panel of judges with expertise in agribusiness management. Judges will then be allotted time to ask questions, and teams will be judged based on a grading rubric that will be provided to teams when the case is sent in July. There will be two rounds to the competition. In the first round, judges will hear from all teams and select the top three teams as finalists. After this announcement, the finalists will present their case to a new panel of judges.

A summary of the competition's preliminary timeline is presented below.

<b>Registration form due:</b>	<b>Friday, June 17 by 5:00 pm EDT</b>
Case sent to team:	Friday, July 15 by 5:00 pm EDT
First round of competition:	Sunday, July 31, 9:00 am – 1:00 pm PDT*
Final round:	Sunday, July 31, 1:30 pm – 3:30 pm PDT*

*\* Pacific time is used for the competition as the 2022 Annual Meeting will take place in Anaheim, California.*

Competition Prizes: The top three teams will receive plaques, cash prizes, and will be recognized at the AAEA Award Ceremony. The cash prizes are as follows:

First Place:	\$300
Second place:	\$200
Third place:	\$100

This is an AEM and GSS co-sponsored competition. As early career professionals, students are highly encouraged to be AAEA members as well as GSS and/or the AEM members. Eligible teams must meet the following criteria:

At least one team member should have an active AAEA membership for 2022 and be a member of AEM or GSS. Each team must complete the Case Study Registration Form identifying their teammates and the universities they represent. The completed registration form must be emailed to Aaron Staples ([staple71@msu.edu](mailto:staple71@msu.edu)) with Samantha Bilgrien ([sbilgrien@aaea.org](mailto:sbilgrien@aaea.org)) cc'd no later than **June 17, 2022**.

Please direct any questions regarding the 2022 AEM-GSS Case Study Competition to Aaron Staples ([staple71@msu.edu](mailto:staple71@msu.edu)) or Dr. Kate Brooks ([kbrooks4@unl.edu](mailto:kbrooks4@unl.edu)).

### **AETR General Call for Papers**

Applied Economics Teaching Resources (AETR) is putting out a general call for papers for innovations in teaching and Extension education. Over the past two years, higher education has seen dramatic shifts in teaching and extension, which has resulted in significant innovations in instructional delivery, new methods, new pedagogy and innovations in how we teach and do Extension. AETR seeks manuscript submissions

highlighting these innovations and new methods, content, and approaches. Manuscript submissions can include research articles, commentaries, methods and case studies. Please email abstracts of your submission idea to the editor at [aetr.editor@gmail.com](mailto:aetr.editor@gmail.com). The abstract should include a proposed title, up to 500 word abstract for the proposed manuscript, and list of authors. The editor will review abstracts, provide feedback and invite submissions for regular submissions, thematic sections and feature articles on this topic.

AETR is an online, open access, and peer-reviewed journal of the AAEA. The aim is to provide an inclusive outlet for research, teaching and Extension education scholarship encompassing but not limited to research articles, case studies, classroom games, commentaries, experiential learning, and pedagogy. The goal is to support and advance teaching and Extension education within the scholarly areas of agricultural and applied economics, and agribusiness economics and management. AETR seeks to publish articles that are diverse in both scope and authorship. It serves as a platform for addressing and contributing to our understanding of important societal issues, including inequality and discrimination, as well as how shifts in pedagogy (e.g., growing reliance on remote and hybrid learning modalities) may impact accessibility and inclusion.

AETR encourages submissions on a wide variety of topics, including social inequality and discrimination; remote learning; hybrid learning; curriculum development; teaching innovations; classroom games; and case studies. Guidelines for submission can be found at: <https://www.aaea.org/publications/applied-economics-teaching-resources/aetr-manuscript-submission-guidelines>. All submissions will go through a blind peer-review process with no charge for submission or publication at this time. You can directly submit a manuscript at: <https://www.aaea.org/publications/applied-economics-teaching-resources>.

Please email if you have any questions or inquiries; send to [aetr.editor@gmail.com](mailto:aetr.editor@gmail.com). We look forward to your submission!

---

### **AETR Call for Papers**

#### **Special Issue, “Contemporary Adjustments Needed to Teaching Water Economics in Light of Challenges Facing the Water Sector and Its Users”**

Guest Editors:

Ariel Dinar and Mehdi Nemati, School of Public Policy, University of California, Riverside.

Water Economics has been taught for many decades at undergraduate and graduate levels. Teaching approaches included the traditional profit/utility-maximizing agents' behavior (farmers, households) where individuals decide the allocation of a given amount of water among consuming activities. Main issues such as availability, allocation, pricing, investment, technology, and management of water resources have been at the forefront of the field of water economics. In recent decades, water resources worldwide have seen many transformations both locally and globally, making the challenges facing water-using agents much more complicated and, as a result, higher skills are needed for the tools and methods they employ.

The water sector has experienced increased levels of climate change-induced water scarcity, frequent and longer droughts, water quality deterioration, human health implications, infrastructure fatigue, increased competition over dwindling resources, conflicts, globalization, and more. These issues have various implications for water managers and users in each sector (i.e., agricultural, environmental, and urban). In addition, new water sources have been introduced in recent years, such as ocean and brackish groundwater desalinated water, treated wastewater, and flood water. In addition, several management practices have been introduced, including joint (cooperative) management of various types of open-access water sources.

Does the water (resource) economics curriculum used in our classes address such challenges and skill needs? Does it allow a proper education and training of the next generation of water economists?

This AETR Special Issue will address whether or not the water economics curriculum is ready to cope with the increased level of challenges regarding water quantity, quality, security, and derived complications. Papers in the special issue will also propose examples of how to introduce tools and class activities that address such new challenges to the water economics curriculum.

Manuscripts submitted for consideration in the special issue will address theoretical and practical experiences of the authors in the class and suggested approaches they have introduced. Manuscripts will follow the journal guidelines (<https://www.aaea.org/publications/applied-economics-teaching-resources/aetr-manuscript-submission-guidelines>). Manuscripts will be subject to a double-blind peer review process. Deadline for submission is **June 30, 2022**. Papers should be submitted through the online submission form (<https://www.aaea.org/publications/applied-economics-teaching-resources/submissions>). Accepted papers will be published first online, until the special issue is complete. Planned publication date of the special issue is early 2023.

For more information, please approach Ariel Dinar ([adinar@ucr.edu](mailto:adinar@ucr.edu)) or Mehdi Nemati ([mehdin@ucr.edu](mailto:mehdin@ucr.edu)).

---

### **Choices Magazine Call for Articles Choices Themes, Single Articles, and Data Visualizations**

The AAEA welcomes proposals for themes, and data visualizations and individual articles to be published in *Choices Magazine*.

*Choices*, a free, online-only publication, is the principal outreach vehicle of the Agricultural & Applied Economics Association (AAEA). *Choices* articles broadly communicate the results of quality economic analysis applied to issues and challenges faced by public and private sector decision makers in ways that enhance public understanding of and appreciation for the work of agricultural economists.

While *Choices* articles are based on economic concepts, the information should be presented in the context of a policy issue without using economic jargon. Articles must be written so they are easily understood by a general-interest audience.

*Choices* editors are looking for three types of submissions:

- Proposals for thematic groupings of papers,
- Individual articles on any food, farm, resource or rural community issue, and
- Data Visualizations.

All manuscripts are subject to peer review for publication consideration.

Theme groupings of papers allow for in-depth coverage of important topics and showcase the different perspectives of agricultural economics analyses. To submit a proposal for theme-based articles, please complete the [Theme Proposal submission form](#). Submitted articles must be prepared according to the [Manuscript Style Guidelines](#).

Single articles provide an opportunity to address timely and important relevant issues or to present new aspects of established issues. Please complete the [Individual Article submission form](#) and follow the guidelines for preparing articles for the review process. Submitted articles must be prepared according to the [Manuscript Style Guidelines](#).

Data Visualizations are appropriate when an author would like to share imagery of an issue that is a timely and important topic based on sound economics and logic. Infographics will be reviewed and published at the discretion of the editor. Please follow the [guidelines for preparing infographics](#) for the review process.

Submissions may occur any time. Reviewed and accepted Choices material is compiled into quarterly issues. Subscribers and AAEA members are notified of new material through email announcements and social media postings.

If you have any questions about submitting to Choices Magazine, please contact the editors: Alison Davis at [Alison.Davis@uky.edu](mailto:Alison.Davis@uky.edu) and Maria Marshall at [mimarsha@purdue.edu](mailto:mimarsha@purdue.edu).

### **Deadline for Proposals Extended: Promoting the Purchase to Plate Tools for Food Demand and Diet Quality Research**

\*\*\*\*DEADLINE EXTENDED TO MAY 16, 2022\*\*\*\*

The Gifford Center for Population Studies at UC Davis, in collaboration with the Economic Research Service of the USDA, seeks to promote the use of the Purchase to Plate tools developed by USDA. To this end, the Gifford Center invites research proposals that use Purchase to Plate tools to conduct research on diet quality, food choices, the cost of a healthy diet, nutritional food insecurity, economic and racial/ethnic disparities in diets, and effects of policy on these outcomes, among other themes. Proposals may address multiple research areas. The goal of this program is to fund proposals focused on these core research areas that display sound research design and high potential impact. Thanks to generous funding from USDA-ERS, the Gifford Center anticipates funding up to five proposals, up to a maximum of \$75,000 per award.

Proposals must be received by May 16, 2022 at 5:00pm PDT. To learn more about this funding opportunity and apply, please view the attached pdf and visit our [website](#). Please share widely.
