- As a participant of the AAEA Annual Meeting, I agree to the terms and conditions as outlined in the AAEA Anti-Harassment and Code of Conduct Policy (must agree before registration is accepted). View full policy [here](#).
- As a participant of the AAEA Annual Meeting, I agree to release and hold harmless AAEA, its owners, directors, officers, employees, agents, managers, trustees, affiliates and/or other representatives from any and all liability loss, claim, damage or injury that might arise or result from, or relate to, now and in the future, my contraction or conveyance of any virus or disease. View full assumption of risk and waiver liability form [here](#).
- AAEA encourages all attendees to take proper safety measures and protocols when it comes to COVID19. This includes up to date vaccinations, wearing a mask, and testing prior to attending the meeting. Please refer to the most up to date guidance regarding COVID19, including [travel requirements](#) on the [CDC website](#).

Call for Applications

Travel Grants for Early Career Professionals and Graduate Students

The AAEA Trust seeks applications for Early Career Professional and Graduate Student Travel Grants. These grants defray housing and transportation costs associated with attending the 2023 AAEA Annual Meeting in Washington, D.C. from July 23-25. The amount of the travel grant awarded will depend on the number of

applications received. AAEA Trust Travel Grants (if awarded) are generally not large enough to offset all travel and lodging costs, but are instead meant to supplement institutional support.

Eligibility Requirements: Qualifying applicants must meet the following eligibility requirements in order to be considered for a travel grant:

- Graduate student or Early Career Professional 2023 member of AAEA as of May 25th (application deadline).
- Actively engaged in agricultural or applied economics fields, such as agribusiness, agricultural, consumer, food, development, environmental, health, marketing, regional, rural, or resource economics.
- Insufficient institutional funding available to make the trip (including from university, department, grant, employer, etc.)
- Paper/poster/session accepted for presentation at the 2023 Annual Meeting.

Application Process

Applications must be submitted through the [online application form](#). You will be asked to submit the following:

- Your name and e-mail address;
- Institution and (if applicable) department at which enrolled/employed. You may indicate “not-yet-employed” if not a current student and without employment – please highlight degree-awarding institution and date awarded:
- Degree program underway (*Graduate Student Applicants*)
- Anticipated graduation date (*Graduate Student Applicants*)
- Professional rank or position and years in that profession (*Early Career Professional Applicants*)
- Number of years at Institution (*Early Career Professional Applicants*)
- Brief summary of research interests (*1000 words or less*);
- Applicant statement (*500 words or less*): description of the anticipated value gained from attending and participating in the Annual Meeting (including paper/poster presentations, awards and/or pre-/post-conference workshops in which you will be involved);
- Proposed travel budget showing costs, funds available from institutional sources, and amount requested;
- A nomination from a department, division head, or supervisor which includes written acknowledgement of the nomination and certification of your financial need, including certification that funding is unavailable from other sources. Self-employed or not-yet-employed applicants may submit a letter supporting the nomination from a colleague or mentor from their degree-granting institution or include a letter stating financial need.

Applications should be submitted by the individual seeking support; however, only two applications from each employing institution will be considered. In the event that more than two applications are submitted from a specific department or division, it will be up to the department head to decide which will be considered, so it may be helpful to coordinate at that level. If an applicant is self-employed or not-yet-employed they may seek a letter of support from a colleague or mentor from their degree-awarding institution. Any letter of support for an Early Career Professional not employed or a student at a degree-awarding institution will not count against the maximum of two nominations from any department or other entity formally nominating other applicants.

Reflecting the Trust's goal of broadening participation in the Annual Meeting, preference may be given to individuals working under institutional circumstances not normally conducive to AAEA meeting attendance.

The deadline for submission is May 25, 2023. To apply, please visit <https://aaea.execinc.com/edibo/TravelGrants2023App>

Call for Applications

AAEA Annual Meeting International Travel Grants

The AAEA Trust seeks applications for AAEA Annual Meeting International Travel Grants. These grants defray housing and transportation costs associated with attending the 2023 AAEA Annual Meeting in Washington, D.C. from July 23–25. The amount of the travel grant awarded will depend on the number of applications received. AAEA Trust Travel Grants (if awarded) are generally not large enough to offset all travel and lodging costs and will likely cover less than half of international travel costs.

Eligibility Requirements

Qualifying applicants must meet the following eligibility requirements in order to be considered for a travel grant:

- Resident of and residing in a country outside the United States/Canada.
- 2023 member of AAEA as of May 25, the deadline for this application.
- Actively engaged in agricultural or applied economics fields, such as, agribusiness, agricultural, consumer, food, development, environmental, health, marketing, regional, rural, or resource economics.
- Insufficient institutional funding available for the trip (including university, department, grant, employer, etc.)
- Paper/poster/session accepted for presentation at the 2023 Annual Meeting.

Application Process

Applications must be submitted through the [online application form](#). You will be asked to submit the following:

- Your name and e-mail address;
- Institution and (if applicable) department at which enrolled/employed. You may indicate “not-yet-employed” if not a current student and without employment – please highlight degree-awarding institution and date awarded;
- Degree program underway (*Graduate Student Applicants*)
- Anticipated graduation date (*Graduate Student Applicants*)
- Professional rank or position and years in that position (*Early Career Professional Applicants*)
- Number of years at Institution (*Early Career Professional Applicants*)
- Brief summary of research interests (*1000 words or less*);
- Applicant statement (*500 words or less*): description of the anticipated value gained from attending and participating in the Annual Meeting (including paper/poster presentations, awards and/or pre-/post-conference workshops in which you will be involved);
- Proposed travel budget showing costs, funds available from institutional sources, and amount requested;
- A nomination from a department, division head, or supervisor which includes written acknowledgement of the nomination and certification of your financial need, including certification that

funding is unavailable from other sources. Self-employed or not-yet-employed applicants may submit a letter supporting the nomination from a colleague or mentor from their degree-granting institution or include a letter stating financial need.

Applications should be submitted by the individual seeking support; however, only two applications from each employing institution will be considered. In the event that more than two applications are submitted from a specific department or division, it will be up to the department head to decide which will be considered, so coordinating with your department may be helpful. If an applicant is self-employed or not-yet-employed they may seek a letter of support from a colleague or mentor from their degree-awarding institution; note that such letters of support will not count against the maximum of two nominations from any department or other entity formally nominating other applicants.

Reflecting the Trust's goal of broadening participation in the Annual Meeting, preference may be given to individuals working under institutional circumstances not normally conducive to AAEA meeting attendance.

The deadline for submission is May 25, 2023. To apply, please visit:

Register for the 2023 AAEA Employment Center

AAEA invites and encourages you to register for the [2023 AAEA Annual Meeting Employment Center](#), taking place July 23–25 in Washington, DC. This is a great opportunity for employers to connect with potential candidates.

Employers who register may post open positions on the [AAEA Job Board](#), view resumes of applicants who are participating in the Employment Center, and they may also utilize a table in the Annual Meeting Employment Center to conduct in-person interviews with applicants.

Applicant registration is FREE. **Please note: Applicants must be registered for the Annual Meeting in order to participate in the Employment Center.**

For more information, please visit the online [Employment Center](#). If you have any questions please feel free to contact [Jessica Weister](#). We hope to see you in Washington, DC! **[Register Online](#)**.

2023 AEM-GSS Case Study Competition

The Agribusiness Economics and Management (AEM) – Graduate Student Section (GSS) Case Study Competition allows graduate students to test their communication skills and their ability to apply their knowledge of agricultural economics and agribusiness to practical situations.

Competition Rules and Timeline: Each team must complete the 2023 AEM–GSS Case Study Registration Form by June 16, 2023. Teams can be comprised of up to three graduate students. Students may either compete as a team from the same university or partner with students from other universities. If there is only one student from a university that wants to participate, the student can compete on their own; or they can be matched with other students. In the case of teams that are matched with individuals from different universities, competitors will be notified of their teammates as soon as possible, and no later than the same day the case is announced.

The case will be sent to teams in mid-July, and teams will be given approximately two weeks to prepare a 15-minute oral summary of their solution to the case. The competition will take place on Sunday, July 23, 2023 coinciding with the AAEA Annual Meeting set to take place in Washington, D.C. Teams will present their case to a panel of judges with expertise in agribusiness management. Judges will then be allotted time to ask questions, and teams will be judged based on a grading rubric that will be provided to teams when the case is sent in July. There will be two rounds to the competition. In the first round, judges will hear from all teams and

select the top three teams as finalists. After this announcement, the finalists will present their case to a new panel of judges.

A summary of the competition's preliminary timeline is presented below.

Registration form due:	Friday, June 16 by 5:00 pm EDT
Case sent to team:	Friday, July 14 by 5:00 pm EDT
Case Study Competition:	Sunday, July 23, 8:00 am – 1:30 pm EDT*
Case Study Finals:	Sunday, July 23, 1:30 pm – 4:30 pm EDT*

* Eastern time is used for the competition as the 2023 Annual Meeting will take place in Washington, D.C.

Competition Prizes: The top three teams will receive plaques, cash prizes, and will be recognized at the AAEA Award Ceremony. The cash prizes are as follows:

First Place:	\$300
Second place:	\$200
Third place:	\$100

This is an AEM and GSS co-sponsored competition. As early career professionals, students are highly encouraged to be AAEA members as well as GSS and/or the AEM members. Eligible teams must meet the following criteria:

At least one team member should have an active AAEA membership for 2023 and be a member of AEM or GSS. Each team must complete the Case Study Registration Form identifying their teammates and the universities they represent. The completed registration form must be emailed to Megan Hughes (hughe232@purdue.edu) with Jessica Weister (jweister@aaea.org) cc'd no later than **June 16, 2023**.

Please direct any questions regarding the 2023 AEM-GSS Case Study Competition to Megan Hughes (hughe232@purdue.edu).

Undergraduate Student Section 2023 Competitions

- Earl O. Heady Decision Sciences Spreadsheet Competition
- Student Paper Competition
- Outstanding Chapter Competition
- Creative Club Competition

Register for the 2023 Academic Bowl

Each year, SS-AAEA sponsors an academic bowl competition for undergraduate students at the [AAEA Annual Meeting](#). Students compete on teams of three, which are affiliated with their school. The finals of the competition are held immediately preceding the AAEA Awards Ceremony, with an audience of all meeting attendees. The winning team receives \$500.

The Academic Bowl Competition will be held on Monday, July 24 at 8:00 am – 4:00 pm followed by The Finals at 5:30 pm to 6:00 pm prior to the Awards Ceremony at the [2023 AAEA Annual Meeting](#).

Specific rules for competition:

1. A team will typically consist of three members from the same school. The same team members must compete in all rounds of the competition, i.e., substitutions and additions are not permitted. Students from different schools can be entered to compete on the alternate team(s) for the Academic Bowl if there are not enough students from one school attending the meeting to form a team. At least two team members must be from the same institution to determine how the prizes will be awarded. Any decisions about two member teams or related issues will be up to the discretion of the SS-AAEA advisors. Inquiries regarding such teams should be directed to the Junior Advisor.
2. All participants must be registered for the current AAEA Annual Meeting. Students who have graduated with an undergraduate degree within nine months prior to the competition, but have not yet begun graduate coursework in the classroom, are eligible to compete (graduate research hours are excluded).
3. A school may register a maximum of two teams of three and no more than two alternates in the competition.
4. The entry form and Annual Meeting registration for each team member are due on or before June 17 to the AAEA Business Office.

AAEA
Attn: Academic Bowl Registration
555 East Wells St. Suite 1100
Milwaukee, WI 53202
Fax: (414) 276-3349

5. Plaques will be awarded to the first through third place teams, along with \$500 for the first, \$300 for the second and \$100 for the third placed teams.

Call for Applications

Editorship of the Applied Economics Perspectives and Policy

The AAEA Executive Board invites applications for one editor for Applied Economics Perspectives and Policy (AEPP) to serve from 2024 through 2026. This call for applications is for an editor to manage Submitted Articles which contain original research results addressing real-world problems with sound research approaches and/or have strong policy relevance within the subject matter of the journal. The degree to which candidate's expertise complements that of the continuing editors, will be considered in the selection process. The AAEA is particularly interested in candidates who will bring ideas and innovations for helping AEPP to further its mission.

Submitted articles will meet the normal standards for scholarly publication, but should also be accessible to the broader audience of agricultural and applied economists working outside academia. Submitted articles should emphasize one or more of the following: a) practical implications for public policy; b) clarification of

research implications so as to maximize accessibility and cross-fertilization across specific areas of research; c) empirical comparison of competing theories, explanations, and approaches that can refine future research; and d) development of fruitful directions for future research. Additional information about the AEPP, its policies and mission is available at www.aaea.org/publications/aepp.

The editor will work with an editorial team comprised of another Submitted Articles Editor, and a Managing Editor to manage the manuscript review process. The Submitted Articles Editors are responsible for day-to-day issues relating to submitted articles, assisting with development of the Special Issues, and revising editorial policy. The AEPP editorial process employs electronic submission of manuscripts and interchange between editors and reviewers. An electronic system that tracks manuscripts through submission, review, and editorial decision is used by the editors for managing work flow. Authors can also query this system for e-mail reports on the status in the editorial process of a submitted manuscript. The editors also oversee the work of Wiley in preparing copy for printing and reviewing proofs.

The new editor should be prepared to begin on January 1, 2024. There may be some training and coordination work starting around November 1. Applications should include a statement of editorial philosophy and ideas for furthering the journal's goals, an indication of the candidate's principal areas of expertise to support the AEPP's mission, a curriculum vitae, and a statement of administrative and financial support to be provided by the host institution. AAEA will provide financial assistance to defray some portion of the editor's time and most expenses. Applications should be sent electronically via PDF to Kristen McGuire, Executive Director, at kmcguire@aaea.org by **May 25, 2023**. Decisions will be made by the AAEA Board by August 2023. Third-party nominations of potentially interested candidates who can then be solicited for their materials are also welcome.

Call for submissions: AAEA invited paper sessions at the 2024 ASSA Annual Meeting

President-Elect Rudy Nayga is soliciting proposals and suggestions for AAEA invited paper sessions at the 2024 Allied Social Sciences Association (ASSA) Annual Meeting in San Antonio, TX, January 5–7, 2024.

The objective of AAEA sessions at the ASSA Annual Meeting is to share new knowledge of interest to economists. The AAEA encourages sessions that will draw widely from ASSA attendees, including sessions jointly sponsored with other ASSA member associations.

A subcommittee of the AAEA Board will review all proposals. Preference will be given to proposals that

- 1) Cover issues of national and international importance,
- 2) Expand capabilities and tools for economic research,
- 3) Promise a high-quality collection of papers suitable for publication.

Papers in approved Invited Paper sessions are eligible to be peer reviewed for publication in the proceedings issue of the *Applied Economic Perspectives and Policies*. Authors will be contacted by the AEPP editors with manuscript submission details.

Proposed formats for the 2-hour sessions may include either three papers with one discussant or else four papers with no discussant. All proposals must include a plan for fostering participant interaction.

Proposals should include the session title and paper titles, as well as the names, addresses, phone numbers, and e-mail addresses of the session organizer, moderator, paper presenters, and discussants. Proposal text

should begin with a short justification of the session, followed by one paragraph abstracts describing the objective and contributions of each paper. The organizer is responsible for ensuring that all individuals identified in the proposal are willing to participate.

All speakers and discussants must be members of AAEA, although the proposal may request a membership waiver under special circumstances. Participants must register for the ASSA meeting.

Please send proposals by **May 24, 2023**, in Word or PDF format to Mary Annen at mannen@aea.org.

Call for Special Issue - Fields of Discord: Understanding the Intersection of Geopolitics and Agriculture

The relationship between geopolitics and agriculture is increasingly important as the world faces numerous challenges related to food security, climate change, and economic development. In addition, the competition for resources and the global interconnectedness of markets and economies make the relationship between geopolitics and agriculture complex and multifaceted. The special issue in *Applied Economic Perspectives and Policy* will bring together academic scholarship to explore the intersection of geopolitics and agriculture. Selected papers will discuss the challenges and opportunities this complex relationship presents, including the potential for conflict and tension arising from competing interests and priorities considering economic, social, and environmental aspects. The special issue will examine how agricultural practices intersect with global politics, from land use and resource management to trade policies and food security. The guest editors encourage paper submissions addressing the following topics:

- Geopolitical factors influencing food and agricultural policies;
- The role of geopolitics in agricultural trade and economic development;
- The impact of climate change on agriculture and its geopolitical implications; and
- The effects of migration on agriculture and food systems.

The special issue will comprise six papers and an editorial paper. A two-stage selection approach will be implemented, where, in the first stage, potential contributors are identified through the 2023 IATRC summer symposium. More information can be obtained at www.tinyurl.com/3s7w4rdh. Then, extended abstract submissions (750 words) for the special issue are requested with a due date on August 1, 2023. Please submit your paper's abstract following the link: www.tinyurl.com/2ymayts4.

Based on the submitted extended abstracts, the guest editors will identify papers that best fit the call and invite those for full consideration. Selected papers will be sent out for rigorous double-blind peer review per the AEPP submission guidelines, with a submission deadline of **September 30, 2023**. Two rounds of peer reviews are planned, with the themed special issue to be published in May 2024.

The guest editors are Sílvia Helena Galvão de Miranda (Escola Superior de Agricultura Luiz de Queiroz, Universidade de São Paulo) and Sandro Steinbach (Center for Agricultural Policy and Trade Studies, North Dakota State University). They can be reached at shgdmira@usp.br and sandro.steinbach@ndsu.edu.

Government Relations & Washington Update

May 2023

CBO Releases Updated Baseline Projections

On May 12th, the Congressional Budget Office (CBO) released its publication “[An Update to the Budget Outlook: 2023 to 2033.](#)” CBO regularly publishes reports that present projections of what the federal budget would look like in the current year and over the next 10 years if existing laws governing taxes and spending generally remained unchanged. CBO’s current projections show a federal budget deficit of \$1.5 trillion for 2023—which is \$0.1 trillion more than the agency estimated in February. In the agency’s updated projections, annual deficits nearly double over the next decade, reaching \$2.7 trillion in 2033. In addition to the overall baseline projections, CBO also publishes detailed information underlying its 10-year budget projections for [selected programs](#) such as the Supplemental Nutrition Assistance Program and mandatory farm programs that are important for Congress as it considers the costs and options for reauthorization of the next Farm Bill.

President Biden Meets with Agriculture Committee Leaders on Farm Bill

On May 11th, President Biden and Secretary of Agriculture Tom Vilsack invited Congressional leaders to a meeting at the White House to discuss the 2023 Farm Bill. The meeting brought together the “four corners” of the House and Senate Agriculture Committees including Senate Agriculture Committee Chairwoman Debbie Stabenow (D-MI), Ranking Member John Boozman (R-AR), House Agriculture Committee Chairman Glenn “GT” Thompson (R-PA), and Rep. David Scott (D-GA).

After the meeting, the four Congressional leaders issued the following joint statement:

“Today, the four leaders of the Agriculture Committees had a conversation with President Biden and Secretary Vilsack on the importance of passing a bipartisan Farm Bill this year. The Farm Bill is a jobs bill. It is a safety net for farmers and consumers, and it is an investment in our rural communities and the health of the American people. The Agriculture Committees have a long tradition of bipartisan cooperation, and we look forward to continuing that tradition through our work on the 2023 Farm Bill.”

The joint statement is encouraging as the committees continue their preparations for the next Farm Bill. Current Farm Bill authority expires on September 30.

Dr. Manjit Misra Named NIFA Director

On April 24th, the U.S. Department of Agriculture (USDA) announced the appointment of Manjit K. Misra as the new Director of the National Institute of Food and Agriculture (NIFA). The NIFA Director leads the agency’s work in advancing agricultural research, education, and extension to solve societal challenges. Dr. Misra started his new role on Monday, May 8, 2023.

Prior to joining USDA, Dr. Misra served as a Professor of Agricultural and Biosystems Engineering at Iowa State University. For more than 30 years, he was Director of the university’s Seed Science Center. The center has administered the National Seed Health System, authorized by USDA’s Animal and Plant Health Inspection Service, since 2001. Dr. Misra also was founding Director of the Iowa State’s Biosafety Institute for Genetically Modified Agricultural Products.

In 2012, Dr. Misra was appointed Chair of the USDA National Genetic Resources Advisory Council (NGRAC), a position he held until 2017. Misra has served on more than 60 local, national, and international boards and committees. These include the Steering Committee for the Food and Agriculture Organization’s (FAO) International Conference on Biotechnology, the Scientific Advisory Council of the American Seed Research

Foundation, the Board of Directors of the Iowa Seed Association, the Iowa Crop Improvement Association, and the First the Seed Foundation.

Dr. Misra is the recipient of several awards for leadership, including the “Distinguished Service Award” from the American Seed Trade Association, the “Order of the Knoll Faculty Award” from Iowa State University, the “Global Agricultural Leadership Award” from the Indian Council of Food and Agriculture, the Sukup Global Food Security award, a certificate of appreciation from the Secretary of Agriculture and the AE50 award from the American Society of Agricultural and Biological Engineers (ASABE).

Dr. Misra earned a Bachelor of Science in Agricultural Engineering in India, a Master of Science and a Doctor of Philosophy in Agricultural Engineering at the University of Missouri–Columbia. He is a researcher with 137 publications and an innovator with ten patents. During his tenure as the Director of the Seed Science Center, the faculty and staff conducted seed programs in 79 countries, including 34 countries in Africa.

2023 Symposia “Fields of Discord: Understanding the Intersection of Geopolitics and Agriculture”

June 26, 2023 | Virtual

Organizers: Sílvia Helena Galvão de Miranda and Sandro Steinbach

The IATRC is organizing a one-day summer symposium on Monday, June 26, 2023. This event will be delivered online and is free and open to the public. The symposium aims to explore the complex relationship between geopolitics and agriculture, highlighting the potential for conflict and tension that arises from competing interests and priorities. This virtual summer symposium aims to bring together scholars, policymakers, and practitioners to explore the intersection of geopolitics and agriculture.

Topic: Fields of Discord: Understanding the Intersection of Geopolitics and Agriculture

Organizers:

- Sílvia Helena Galvão de Miranda (Universidade de São Paulo)
- Sandro Steinbach (North Dakota State University)

Invited Speaker:

Michele Ruta is Deputy Chief in the Strategy and Policy Review Department of the International Monetary Fund, where he oversees the work on trade and trade policy. He had previous appointments at the World Bank, the World Trade Organization, and the European University Institute. He holds a Ph.D. in Economics from Columbia University and an undergraduate degree from the University of Rome “La Sapienza”. Michele’s research focuses on international and regional integration and had been published, among other, in the Journal of International Economics, the Journal of Development Economics and the Journal of the European Economic Association. His books and edited volumes include The Impact of the War in Ukraine on Global Trade, the Handbook of Deep Trade Agreements and Belt and Road Economics. [His personal website can be viewed here.](#)

Call for Papers – deadline **May 29, 2023**

[The call for papers is linked here.](#) Submissions are open to IATRC and non-IATRC members. Please submit your (up to) 750 word abstract at this website: <http://www.tinyurl.com/3w6fwzsk>. A decision on the submissions will be made by June 5, 2023.

Submissions for the symposium will be considered for publication in a special issue of Applied Economic Perspective and Policy with an extended abstract due by August 1, 2023. Please review the special issue details here: <https://www.aaea.org/publications/aep/special-issue-fields-of-discord>

Registration – deadline June 16, 2023

Please follow this link to complete a brief registration form: <https://z.umn.edu/IATRCSymposium2023>. You will receive a link to the online platform ahead of the symposium.

The event is co-sponsored by the Center for Agricultural Policy and Trade Studies and the Sheila and Robert Challey Institute for Global Innovation and Growth at North Dakota State University. Learn more about the Challey Institute here: <https://www.ndsu.edu/challeyinstitute/>.

68th Annual Conference of the Australasian Agricultural & Resource Economics Society

Date: February 6–9, 2024

Venue: Australian National University Campus, Canberra, Australia

Description: Theme: Grand Challenges at the Frontier of Applied Economics

The Australasian Agricultural and Resource Economics Society (AARES) is the pre-eminent organisation promoting applied economics research and policy engagement in agricultural and resources industries including, agribusiness, food systems, and the environment. Our journal, the Australian Journal of Agricultural and Resource Economics (AJARE) publishes original, high-quality, and interdisciplinary research and policy analysis pertaining to agriculture, the environment and natural resources.

The theme of the AARES 2024 conference, “Grand challenges at the frontier of applied economics”, will focus discussions on the cutting edge of applied economics. We endeavour to explore the grand challenges that are facing the Australasian region and beyond, such as biosecurity, climate change, environmental degradation, energy systems, and food security.

This conference will provide a forum for our Society to explore new opportunities for research and development, and policy practice that can address these grand challenges in securing efficient, effective, and equitable outcomes. Distinguished researchers and professionals will present keynote presentations to inspire and stimulate discussions at the AARES 2024 conference.

The 2024 Annual Conference of AARES is going to be held on the Australian National University Campus in Canberra. A dedicated conference website will be established closer to the event.

In mid-2023 the local organizing committee will call for proposals for:

- Pre-conference Workshops; these will be held on Tuesday, February 6, 2024
 - Mini-symposia and themed sessions, and contributed papers; these will be scheduled during the conference proper, February 7–9, 2024
-

Request for Applications; National Agricultural Research, Extension, Education, and Economics (NAREEE) Advisory Board, Citrus Disease Subcommittee (CDS), National Genetic Resources Advisory Council (NGRAC), Specialty Crop Committee (SCC), and Pollinator Subcommittee (PS)

AGENCY:

Research, Education, and Economics (REE), United States Department of Agriculture (USDA).

ACTION:

Solicit applications for memberships for the NAREEE Advisory Board, Citrus Disease Subcommittee, National Genetic Resource Advisory Council, Specialty Crop Committee, and Pollinator Subcommittee.

SUMMARY:

In accordance to the Federal Advisory Committee Act (FACA), as amended, the Research, Education, and Economics (REE), United States Department of Agriculture (USDA) announces the opening of the solicitation for applications to fill vacancies on the National Agricultural Research, Extension, Education, and Economics (NAREEE) Advisory Board and its committees and subcommittees for Fiscal Year 2024 and any vacancies that may occur in this current fiscal year (FY23)—from the date of this notice to September 30, 2023: Citrus Disease Subcommittee (CDS), National Genetic Resources Advisory Council (NGRAC), Specialty Crop Committee (SCC), and Pollinator Subcommittee (PS).

DATES:

Visit the NAREEE Advisory Board website: <https://nareeeab.ree.usda.gov/> to review a complete list of the Board and committee and subcommittee membership categories. If you wish to be considered for the expiring seats listed in A–D under the SUPPLEMENTARY INFORMATION , applications should be submitted by close of business Eastern Standard Time on Wednesday, May 31, 2023.

Applications for all Board and Committee/Subcommittee membership seats will be received continuously until Friday, December 29, 2023.

Applicant Selection

Applicants will be selected by the Secretary of Agriculture based on how well they meet the required qualifications and the current needs of the Board and its committees/subcommittees. It is anticipated that the members will start serving on the Advisory Board and/or committees/subcommittee beginning of October 2023. <https://nareeeab.ree.usda.gov/applications>

FOR FURTHER INFORMATION CONTACT:

Kate Lewis, Executive Director, National Agricultural Research, Extension, Education, and Economics Advisory Board, 1400 Independence Avenue SW, Room 6019 South Building, Washington, DC 20250–2255; email: nareee@usda.gov. NAREEE Advisory Board website: <https://nareeeab.ree.usda.gov/>.

Graduate Advising in Agricultural and Applied Economics Departments: Effects of the Student-Advisor Relationship

"Researchers Glynn Tonsor, Brian Coffey, and Justin Bina (Kansas State University) are seeking to quantify the impact of the graduate student–advisor relationship on student performance outcomes and faculty advising

engagement. As part of that research effort, they are asking graduate students and faculty across the country's agricultural economics departments to participate in a brief online survey.

Please take 10 to 15 minutes to complete the provided online survey. Your participation is greatly appreciated. Questions about the survey or research project can be addressed to Glynn Tonsor (gtonsor@ksu.edu) or Justin Bina (jbina97@ksu.edu).

Distributional Impacts of Climate Change in the Agricultural Sector

Chicago, IL – November 16–17, 2023

Climate change affects all aspects of the agricultural sector, from technology and input choices, to the wages and welfare of workers, to the prices consumers pay for food and agricultural products. To promote research on the distributional impacts of climate change, the National Bureau of Economic Research (NBER), with the generous support of the Economic Research Service at the US Department of Agriculture (USDA), will convene a research conference in Chicago on November 16–17, 2023. The conference will be organized by Ellen Bruno and Meredith Fowlie of the University of California, Berkeley, and Danae Hernandez–Cortes of Arizona State University.

Research submissions that explore the distributional implications of climate change in an agricultural context are encouraged. Potential topics of interest include, but are not limited to:

- Assessments of how climate change and extreme weather events have affected agricultural production, food prices, and the distribution of consumer welfare for households in different income, racial, ethnic, and other groups.
- Spatial analysis of the impacts of climate change on farm incomes, environmental outcomes, crop choice, and agricultural investments.
- Development of metrics to assess the distributional impacts of climate change on incomes and livelihoods in the agricultural sector over time.
- Analysis of how shifting climate conditions, and potential policy responses to these conditions, could affect agricultural workers.
- Evaluation of how the farm-to-table supply chain could be affected by climate change, with particular attention to impacts on consumer prices, the availability of products, and food security for marginalized communities.
- The potential effects of climate-related agricultural policy alternatives, such as crop insurance programs, and incentives targeting adaptation strategies.
- The efficacy of social insurance programs, such as SNAP, in reducing the impact of climate change on low-income households.

The organizers welcome submissions of both empirical and theoretical research, including papers by scholars who are early in their careers, who are not NBER affiliates, and who are from groups that are under-represented in the economics profession. The program will prioritize research on the U.S. agricultural sector and economy. To be considered for inclusion on the program, papers must be uploaded by midnight (EDT) on **Thursday, June 15, 2023** via the following link: <http://conference.nber.org/confsubmit/backend/cfp?id=AEf23>

Complete papers are preferred, but extended abstracts may also be submitted. Please do not submit papers that have been accepted for publication and that will be published by November 2023. Authors chosen to present papers will be notified in early July. A virtual pre-conference meeting will be convened in August 2023. The organizers will consider publishing the papers presented at this meeting in an edited NBER proceedings volume, or in a special issue of a refereed journal, subject to the interest of the paper

Questions about this conference may be addressed to confer@nber.org.

Water Economics and Policy Journal: Call for Papers for a Special Issue

Special Issue on Economic Impact of Climate Change on the Water Sector in MENA and Northern Mediterranean Countries

Guest Editor:

Slim Zekri (Sultan Qaboos University, Oman)

Email: Slim@squ.edu.om

Climate change in MENA countries as well as Northern Mediterranean countries (Portugal, Spain, Italy, Cyprus, Greece, and Southern France) has already made an evident impact affecting rain-fed agriculture as well as surface water reservoirs, aquifers' natural recharge and cities. Crop varieties and tree species currently under cultivation in the Southern Mediterranean would progressively be appropriate in the North Mediterranean farming systems for adaptation. Rain is becoming more sporadic and more intensive with fewer number of rainy days, higher temperatures, and longer summer months, leading to crop area shrinkage and increased need for water desalination. Hence, the increased water scarcity is affecting all the economic sectors (agriculture, water utilities, industry, tourism, and the environment) and driving a higher demand for water, including for adaptation purposes. Domestic urban and rural water are under increased stress/variability and water service failures/interruptions are becoming more frequent causing social discontent. Although quantitative technical-physical climate impacts are quite abundant, the lack of economic value tags attached to such studies makes them less valuable for policy consideration and undertaking the necessary shifts and adaptations. Previous economic impact studies based their adaptation measures on deficit irrigation for instance, however data is showing that aquifers are under high stress and cannot be used for such a purpose. Similarly, surface water reservoirs' storage capacity is negatively affected by siltation caused by the more torrential sporadic intensive rains reducing the supply of water and increasing the supply uncertainty. This special issue of Water Economics and Policy aims to bridge this gap.

Potential topics/issues include, but are not limited to:

- Assessing the economic losses caused by extreme events (droughts; floods; extreme temperatures) on water for cities and agriculture;
- Economic impact of climate change on rain-fed and irrigated agriculture and adaptation measures;
- Economic impact of climate change on dams' storage capacity based on observations (during the period 1990-2022). Dams' siltation and water value taking into account rain intensity and periodicity;
- Adaptation measures and investments in the water sector as a response to climate change;
- Impacts of climate change on water policies and institutions;
- MENA and Northern Mediterranean countries' policy adaptation measures and investments undertaken in the past 20 years in the water/agricultural sectors;
- Case studies of successful adaptation strategies in the water sector;

- International programs and international aid and their effect on water sector adaptation to climate change on the MENA region;
- Assessment of the European programs oriented toward water sector climate adaptation for Northern and Southern Mediterranean countries; and
- Investments in R&D for water climate adaptation.

Timeline and submissions

Manuscript submission deadline (via Editorial Manager): **July 31, 2023**.

All submitted papers are expected to fully comply with Water Economics and Policy journal standards and are subject to regular review procedures. Papers should not have been published previously in any other journal (print or electronic format). All submissions should follow the journal's Submission Guidelines found here: <https://www.worldscientific.com/page/wep/submission-guidelines>.

About the Guest Editor

Dr Slim Zekri is Professor in the Dept. Nat. Res. Econ. at Sultan Qaboos University. He earned his PhD in Ag. Econ. and Quantitative Methods from the University of Cordoba, Spain. His main research interests are in Water Economics & Policy; Agricultural Economics and Environmental Economics. In 2017 he won the Research and Innovation Award in Water Science from the Sultan Qaboos Higher Center for Culture & Science. He is Associate Editor of the journal of Water Economics and Policy. He worked as a consultant for a range of national and international agencies. He is member of the Scientific Advisory Group of the FAO's Globally Interesting Agricultural Heritage Systems since 2018. In 2020 he edited a book titled Water Policy in MENA Countries published by Springer.

Special Issue in Food Policy: Transforming Global Agri-Food Value Chains

This special issue of Food Policy invites research papers that contribute to our understanding of the complex relationships between agri-food value chains, trade, domestic and international policies, and global value chains (GVCs). Recent socioeconomic and political events (e.g., COVID-19, Russia-Ukraine War) challenge conventional wisdom regarding the structure and importance of agri-food GVCs, raising the need for new research. The transformation of agri-food GVCs is necessary for addressing some of the global challenges identified in the UN Sustainable Development Goals. We encourage studies that address various aspects of the issues facing agri-food GVCs and their impact on various socioeconomic outcomes, such as food safety, consumer nutrition and health, employment and wages, and technology spillovers. We welcome submissions based on diverse approaches and methods (e.g., empirical and qualitative analyses, simulation models, case studies, and systematic reviews). We welcome submissions from various relevant disciplines, including applied economics, food systems science, transportation sciences, and other sciences, provided the studies are accessible to scientists from different disciplines.

Guest editors:

<p>Dr. Titus Awokuse Michigan State University, East Lansing, MI, USA (Keywords: International trade, Food security policy, Economic growth)</p>	<p>Dr. Fabio Santeramo University of Foggia, <i>Cattedra di di Economia e Politica Agroambientale, Via Napoli 25, 71122 - Italy</i> (Keywords: Agricultural Policy and International Trade)</p>	<p>Dr. Sandro Steinbach North Dakota State University, Department of Agribusiness and Applied Economics, Fargo, ND, USA (Keywords: Agricultural Policy and International Trade)</p>	<p>Dr. Sunghun Lim Louisiana State University, Department of Agricultural Economics and Agribusiness, Baton Rouge, LA, USA (Keywords: Global Value Chains, International Trade and Development, Structural Transformation)</p>

Special issue information:

This special issue of Food Policy invites research papers that contribute to our understanding of the complex relationships between agri-food value chains, trade, domestic and international policies, and global value chains (GVCs). Recent socioeconomic and political events (e.g., COVID-19, Russia-Ukraine War) challenge conventional wisdom regarding the structure and importance of agri-food GVCs, raising the need for new research. The transformation of agri-food GVCs is necessary for addressing some of the global challenges identified in the UN Sustainable Development Goals. We encourage studies that address various aspects of the issues facing agri-food GVCs and their impact on various socioeconomic outcomes, such as food safety, consumer nutrition and health, employment and wages, and technology spillovers. We welcome submissions based on diverse approaches and methods (e.g., empirical and qualitative analyses, simulation models, case studies, and systematic reviews). We welcome submissions from various relevant disciplines, including applied economics, food systems science, transportation sciences, and other sciences, provided the studies are accessible to scientists from different disciplines. The papers are strongly encouraged to address the following themes:

1. What are the Implications of recent economic and political events for the future of agri-food GVCs?
2. What are the implications of changes in agri-food GVCs for food safety, consumer nutrition and health, global markets and trade, employment and wages, and technology spillovers?
3. How can agricultural and food policies affect the sustainability and efficiency of agri-food GVCs?
4. What are the welfare consequences of domestic and foreign agri-food policies across agri-food GVCs and between developed and developing economies?

Manuscript submission information:

The [Food Policy's submission system](#) will be open for submissions to our Special Issue from February 7, 2023. When submitting your manuscript please select the article type "VSI: Transforming Global Ag-Food VC". Please submit your manuscript before **June 30, 2023**.

All submissions deemed suitable to be sent for peer review will be reviewed by at least two independent reviewers. Once your manuscript is accepted, it will go into production, and will be simultaneously published in the current regular issue and pulled into the online Special Issue. Articles from this Special Issue will appear in different regular issues of the journal, though they will be clearly marked and branded as Special Issue articles.

Please ensure you read the Guide for Authors before writing your manuscript. The Guide for Authors and link to submit your manuscript is available on the Journal's homepage at <https://www.elsevier.com/journals/food-policy/0306-9192/guide-for-authors>.

Inquiries, including questions about appropriate topics, may be sent electronically to Dr. Titus Awokuse <awokuset@msu.edu>

Keywords:

Agri-food value chains, food safety, food security, international trade, domestic and international policies, consumer nutrition and health, COVID-19
