

President's Column

May 2025

I want to recognize that the last few months have been difficult for many of our members. Some have lost their jobs and others have lost funding for projects years in the making. Long run plans have been upended and the future is highly uncertain. The AAEA Board understands that current events may impact folks' ability to stay engaged with AAEA. We are actively working to find ways to help folks do so. I want to talk about a few of these.

The Board decided to charge a token registration fee to the 2025 Annual Meetings in Denver for members who have involuntarily lost employment in 2025 or have signed on to the Deferred Resignation program. In this way we hope to assist members who may have had their registration paid for by their employer, but are either separated or are planning on separating in the coming months, to attend the meetings and connect with colleagues and friends.

In addition, working with Section leadership, we have increased the financial aid for members who have lost funding that might have allowed them to over the past year. As of this writing, we have allocated 33 travel grants to affected members. While demand for these Section grants exceeded available funds, we have done our best to prioritize funding for folks presenting papers at the meetings. If you would like to individually sponsor a travel grant, please reach out to me or [Jeanne Rhodes](#) and let us know. Between the travel grant and reduced registration, we hope to make attending the 2025 meetings affordable for folks who may now be paying out of pocket.

We are also working on plans for reduced membership fees for folks who have involuntarily lost employment in 2025 or have signed on to the Deferred Resignation program. While details will be announced after the annual meetings, the goal will be to minimize the burden of remaining part of AAEA. We value our membership and want to help folks stay connected.

Taking a step back, we are working with our Washington representative to communicate the value of our work to policy makers and advocate for programs on which we depend as a profession. We're focusing on preserving research funding streams, maintaining the data infrastructure on which we depend, supporting early-career professionals, and showing the value of our members' work to agriculture, food systems, and rural communities. I continue to believe that our work has never been more relevant or important. If you have the time, I would ask members to send us examples of work that has a direct impact on farmers and people

working in agriculture. Communicating impact in narrative form helps us show the value of our work during these difficult times.

2025 AAEA FAMPS Poster Competition

FAMPS proposes to host a poster session at the 2025 Annual Meeting, similar to the one hosted at the 2024 meeting. The objective of the poster session is to provide a forum for researchers with more limited professional networks, like graduate students and beginning faculty, to be recognized for innovative and high-quality research in poster sessions. These researchers might be less likely to participate in track

sessions, and thus attend the annual meeting, than researchers with stronger professionally networks. This recognition could also be helpful to some researchers at the beginning stages of their career.

The details for the poster session are the following:

- FAMPS will provide three awards:
 - Two (2) \$250 prizes for the best posters in which the lead author is a graduate student
 - One (1) \$250 prize for the best poster in which the lead author has a doctorate degree
- Requirements: The lead author for each submission must be a FAMPS member and must attend the 2025 AAEA & WAEA Joint Annual Meeting in-person.
- Submissions: AAEA will send notifications of accepted posters in March. Once this occurs, FAMPS will communicate in late March/early April to those with accepted posters they can participate in the FAMPS poster contest.
- Judging: FAMPS leadership will identify three researchers to judge the competition.
- Logistics: The poster competition judging will occur on Monday during the lunch break from 11:30am – 1:00pm in the poster hall. Posters accepted in the FAMPS competition will have a symbol/tag on their poster board.

The deadline to apply is **May 30, 2025**.

Deadline for proposals: May 15, 2025 – TODAY

Applied Economic Perspectives and Policy (AEPP) invites proposals for a special issue on Food Prices and Forecasting. Recent global events such as the COVID-19 pandemic, geopolitical disruptions, and climate variability have highlighted the importance of understanding food price dynamics and developing effective forecasting methodologies. This special issue will explore a range of topics related to the drivers, impacts, and policy implications of food price inflation and volatility.

The special issue will include two categories of papers: invited contributions (already in development) and solicited papers based on this call. We seek five additional contributions that complement the existing papers, addressing the following topic areas:

1. Global Trade and Trade Policy
2. Climate Change and Production
3. Policy Interventions and Price Stabilization
4. Energy and Transportation Costs in Food Pricing
5. Manufacturers' Responses to Price Fluctuations
6. Consumer Behavior and Responses to Price Changes
7. Food Security and Nutrition Security

Submission Process

To streamline the process and avoid unnecessary work for prospective authors, we will employ a two-step process:

1. Proposal Submission:

- Interested authors are invited to submit a 2–4 page proposal by May 15, 2025, detailing:

- Topic Area and Scope: The central theme of the paper and its relevance to the special issue. Please indicate which topic area, **from the list above**, your submission fits within.

- Existing Literature: Reference to related papers and how the proposed paper will differ from prior work.
- Policy Implications: Policy insights expected from the paper and potential research gaps to address.
- Author Qualifications: A brief overview of the author(s)' expertise in the topic area.
- Proposals should be submitted as a single PDF to Lauren.Chenarides@colostate.edu. The guest editors will review all submissions, and invitations to submit full papers will be sent by June 2, 2025.

2. Full Paper Submission

- Invited authors will be given four months to prepare their submissions, with a deadline of September 15, 2025. Full papers will undergo standard peer review. An invitation to submit does not guarantee acceptance for publication but confirms the topic and authors are of interest to the editors.

Risk and Risk Management in the Agricultural Economy

November 21, 2025 — Cambridge, MA

To promote research on the risks that are borne by individuals and firms in the agricultural sector, and on the tools that are available to manage these risks, the National Bureau of Economic Research (NBER), with the support of the Economic Research Service at the US Department of Agriculture, will convene a research conference in Cambridge, MA on Friday, November 21, 2025. The conference will be organized by Barry Goodwin (North Carolina State University) and Tatyana Deryugina (University of Illinois and NBER).

The organizers will consider submissions of complete, or nearly complete, papers that will be ready to present by November 2025. They welcome empirical and theoretical research, as well as papers by scholars who are early in their careers and who are not NBER affiliates. If any members of the research team have ties to the agricultural industry or other potential conflicts of interest, those ties should be disclosed on the first page of the submission. The program will prioritize research on the US food and farm economy.

To be considered for inclusion on the program, papers must be uploaded by midnight (EDT) on Tuesday, **August 12, 2025** via the following link:

<https://conference.nber.org/confs submit/backend/cfp?id=AEf25>

Please feel free to share this call for papers widely with any researchers who might be working on projects that are suitable for presentation.

Please do not submit papers that have been accepted for publication and will be published by November 2025, and be aware that NBER papers may not make policy recommendations or offer normative judgements on policy. Authors chosen to present papers will be notified in early September. The NBER will cover hotel and economy-class conference travel for up to two authors per paper. Questions about this conference may be addressed to confer@nber.org.
